

Introduction to Systems Thinking

# Lesson 4: Quiz

## Lesson 4: Quiz

0.0/3.0 points (ungraded)

Take this quiz to check your understanding of the concepts in this lesson. After submitting, select "Show Answer" to see the correct responses.

### Question 1

Why is the behavior over time (BOT) diagram so powerful in understanding a given situation or case study?

- ☐ The BOT primarily concerns interconnections using the iceberg metaphor.
- ☐ The BOT shows how data about behavior can be plotted on a graph.
- ☐ The BOT primarily captures the perceptions of individuals about events.
- ☐ The BOT shows how events, over time, reveal patterns.

### Question 2

Which element in the Iceberg Tool represents interconnections?

- ☐ The waves that stand in for the ocean in which the iceberg floats
- ☐ The questions that guide the user to analyze a case study using the Iceberg tool
- ☐ The triangle that stands in for the iceberg metaphor

### Question 3

Which elements in the Iceberg Tool represent patterns? **Choose 2 answers.**

- ☐ The answer to question 5 (patterns)
- ☐ The waves that stand in for the ocean in which the iceberg floats
- ☐ The answer to question 6 (solution)
- ☐ The top of the triangle that stands in for the iceberg metaphor

Submit
