

Lesson 2: Introduction

LESSON 2
THE CASE OF LIMITED DATA STORAGE

Lesson 2: Introduction

In this lesson, you will analyze a complex case study, "The Case of Limited Data Storage."

Learning Objective

Consider the following learning objective as you move through the lesson:

- Defend a proposed solution to a problem in a complex case study, including a conceptual model of the system’s structure, the strengths and challenges of the solution, any rejected alternative solutions, and the anticipated impact of the solution on the overall system.
